

Placement Cell Activities (Academic Year 2023–2024)

The main motive of forming placement cell is to provide not only employment opportunity but also help students to gain an insight on experience of professional line. Placement cell had planned following actions regarding internship & placement for students.

- To empower TY students with the skills and attitude to enter competitive workforce, Placement cell in association with Techno serve has conducted Employability Training and Youth Empowerment program in which following activities were conducted. Training was of 80 hours which was delivered through offline & online class.
- The Placement cell of Mittal college in association with ICT academy conducted Training program which comprises of Soft Skills Training Sessions & Retail Team Leader through Bajaj Finserv Company. Our students have been thoroughly equipped with essential soft skills and leadership in retail through immersive hands-on training, setting a remarkable example. Our training sessions are dedicated to grooming students for interviews, whether they are conducted off-campus or on-campus, ensuring they are well-prepared for any opportunity that comes their way.
- **More than 10 interview drives were carried out by the placement cell of top brands like Bajaj finance, Reliance Securities, Motilal Oswal Financial Services and many other companies to facilitate student placements, conducted both on campus, off campus, and through virtual platforms.**
- Students are continuously encouraged and motivated to take part in different job fairs organized at other colleges.
- Various openings were brought to notice of students from time to time about different companies for career opportunities for Jobs as well as Internship Programs into various reputed firms like TCS, P&G, Axis, Motilal Oswal Financial Services, Reliance Securities, Bajaj Finance, Just Dial, NCS, Times of India, Millenium Money Finance, Conviction HR and many more companies.
- Placement Cell is very active putting continuous efforts for the students to give them best careers opportunities and benefit them in terms of Internships and Placement
- More than 120 students were successful in getting career opportunities which includes internships & placements.

Placement Cell Activities (Academic Year 2024–2025)

The Placement Cell serves to prepare students for their careers by offering guidance and skill development. It connects students with employers through training, internships, and recruitment drives. The primary goal of establishing a placement cell is to offer students not just employment opportunities but also valuable exposure to the professional world. The placement cell has outlined specific initiatives for internships and placements to benefit students.

- To empower TY students with the skills and attitude to enter competitive workforce, Placement cell in association with Techno serve has conducted Employability Training and Youth Empowerment program in which following activities were conducted. Training was of 80 hours which was delivered through offline & online class. Training were conducted in different batches of Bms, Baf, Bammc & Bcom students. The Program of Training included Personal effectiveness, Communication readiness, Career readiness and Work Readiness.
- More than 10 interview drives were carried out by the placement cell of top brands like Motilal Oswal, Reliance Retail, Just Dial, TCS, House of Artists, Ten and many other companies to facilitate student placements, conducted both on campus, off campus, and through virtual platforms.
- Students are consistently inspired and motivated to participate in various job fairs hosted at other colleges. Interview preparation guidance sessions are continuously done by Mr. Pratik Bhardwaj before interviews/drives.
- Various openings were brought to notice of students from time to time about different companies for career opportunities for Jobs as well as Internship Programs into various reputed firms like TCS, Axis, Motilal Oswal Financial Services, Reliance Retail, Vijay Sales, Just Dial & many more.

- The Placement Cell is highly proactive, consistently striving to provide students with excellent career opportunities and supporting them through internships and placements. **Over 100 students** have successfully secured career opportunities, including both internships and placements. Various workshops and sessions were organized, including resume building, resume screening, and mock interviews. Additionally, focused efforts were made to train the new batch.
- The AWS workshop conducted in college focused on introducing students to Amazon Web Services (AWS) and its wide range of cloud computing services for Bsc IT & Bsc Cs students. The event included a demonstration where participants learned to set up and manage AWS instances. Experienced instructors guided the attendees through practical exercises, providing insights into real-world applications of cloud technology. The workshop aimed to enhance students' technical skills, preparing them for future opportunities in cloud computing and IT infrastructure.
- The BSC IT & BSC CS department hosted a debate on "AI: a boon or a curse" for BMS, BAF, BSC IT, BSC CS, and BAMMC students. Renowned speakers Mr. Prabhat Billore and Mrs. Upasana Goyal guided the discussion. The debate aimed to enhance public speaking and critical thinking, offering a platform for students to articulate diverse opinions. Engaging and insightful, the session sparked thoughtful discussions about the impact of AI.
